COPPER MOUNTAIN MINING CORPORATION
(The "Company")

MANAGEMENT'S DISCUSSION & ANALYSIS ("MD&A") OF FINANCIAL CONDITION & THE RESULTS OF OPERATIONS FOR THE PERIOD ENDED JUNE 30, 2017

August 3, 2017

Introduction
Management's discussion and analysis ("MD&A") focuses on significant factors that affected Copper Mountain Mining Corporation's performance and factors that may affect its future performance. In order to better understand the MD&A, it should be read in conjunction with the consolidated financial statements for the period ended June 30, 2017. The Company reports its financial statements in accordance with International Financial Reporting Standards ("IFRS"). The Company's significant accounting policies are set out in Note 3 of audited consolidated financial statements for the year ended December 31, 2016. The Company's financial statements and the MD&A are presented in Canadian dollars and are intended to provide a reasonable basis for the investor to evaluate the Company's development and financial situation.

Forward-Looking Statements

The MD&A contains certain statements that may be deemed "forward-looking statements." All statements in this MD&A, other than statements of historical fact, that address exploration drilling, exploitation activities, and events or developments that the Company expects to occur, are forward-looking statements. Estimates regarding the anticipated timing, amount and cost of mining at the Copper Mountain mine are based on assumptions underlying mineral reserve and mineral resource estimates and the probability of realizing such estimates are set out in the Updated Feasibility Study on the Copper Mountain Mine. Capital and operating cost estimates are based on extensive research by the Company, recent estimates of construction and mining costs and other factors that are set out herein and in the Updated Feasibility Study. Production estimates are based on mine plans and production schedules, which have been developed by the Company's personnel and independent consultants. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential", "targets" and similar expressions , or that events or conditions "will", "would", "may" , "could", or "should" occur. Information inferred from the interpretation of drilling results and information concerning mineral resource estimates may also be deemed to be forward-looking statements, as it constitutes a prediction of what might be found to be present when and if a project is actually developed. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include, but are not limited to: general business, economic, competitive, political and social uncertainties; the limited operating history of the Company; actual results of reclamation activities; conclusions of economic evaluations; fluctuations in the value of the Canadian dollar relative to the United States dollar; changes in project parameters as plans continue to be refined; failure of equipment or process to operate as anticipated; changes in labor costs and other costs and availability of equipment or processes to operate as anticipated; accidents, labor disputes and other risks of the mining industry, including but not limited to environmental hazards, cave-ins, pit-wall failures, flooding, rock bursts and other acts of God or unfavorable operating conditions and losses, detrimental events that interfere with transportation of concentrate or the smelters ability to accept concentrate, including declaration of Force Majeure events, insurrection or war;

delays in obtaining governmental approvals or revocation of governmental approvals; title risks and Aboriginal land claims; delays or unavailability in financing or in the completion of development or construction activities; failure to comply with restrictions and covenants in senior loan agreements, actual results of current exploration activities; volatility in Company's publicly traded securities; and the factors discussed in the section entitled "Risk Factors" in the Company's annual information form and in the Company's continuous disclosure filings available under its profile on SEDAR at www.sedar.com. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. Forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking statements, except in accordance with applicable securities laws.

Cautionary Note to Investors Concerning Estimates of Measured and Indicated Resources. This discussion uses the terms "measured resources" and "indicated resources". The Company advises investors that while those terms are recognized and required by Canadian regulations, the U.S. Securities and Exchange Commission does not recognize them. **Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves."**

Highlights

(In thousands of CDN$, other than per share and per pound amounts)	Three months ended June 30, 2017 $	2016 $	Six months ended June 30, 2017 $	2016 $

Realized Copper Price (US$)	2.58	2.13	2.62	2.12

Quarter Results & Highlights (100%)

- Copper, gold and silver production for the second quarter of 2017 at Copper Mountain Mine was 17.2 million pounds of copper, 5,900 ounces of gold and 63,200 ounces of silver.
- Revenue for the period was $67.1 million, from the sale of 17.6 million pounds of copper, 6,300 ounces of gold, and 62,700 ounces of silver, net of pricing adjustments.
- Gross profit for the quarter was $8.3 million.
- Cash flows from operations for the quarter was $25.9 million.
- EBITDA was $25.2 million for the quarter.
- Site cash costs for the 2017 first quarter were US$1.31 per pound of copper produced net of precious metal credits.
- Total cash costs for the quarter were US$1.74 per pound of copper sold net of precious metal credits and after all off-site charges.
- Realized prices on metal sales in the quarter were US$2.58 per pound of copper, US$1,254 per ounce of gold and US$17.11 per ounce of silver.

[1] Adjusted earnings (loss) is a non-GAAP financial measure which removes unrealized gains/losses on interest rate swaps, pricing adjustments on concentrate metal sales and foreign currency gains/losses.
[2] Calculated by dividing the total adjusted earnings by the weighted average number of shares outstanding under the basic method.
[3] Earnings before interest, taxes, depreciation and amortization. Refer to the Non-GAAP Performance measures section of this MD&A.

Overview

Copper Mountain Mining Corporation is a mid-tier copper-gold producing company that was incorporated under the provisions of the British Columbia *Company Act* on April 20, 2006. The Company owns 75% of the Copper Mountain mine through a subsidiary and Mitsubishi Materials Corporation ("MMC") owns the remaining 25%.

Following the successful exploration programs of 2007 and 2008 the Company completed an updated Feasibility Study and committed to the development of the new mine. On April 1, 2010 the BC Government issued the approval that allowed for construction of the $438 million development. Mechanical completion of the concentrator and associated facilities was achieved on budget and on schedule at the end of May 2011. Commissioning was finished by the end of June 2011. Production of copper concentrate commenced during the third quarter of 2011.

The development plan was based on mining over time the three existing open pits into one larger super pit and constructing a new 35,000 tonnes per day (tpd) concentrator designed to produce approximately 100 million pounds of copper per year in a copper concentrate with gold and silver credits. Over the initial mine life the mine is planned to produce 1.48 billion pounds of copper, 4,490,400 ounces of silver and 452,000 ounces of gold.

In 2013 management confirmed that the ore was harder than anticipated in the mill design and a secondary crusher was necessary. Construction of the $40 million permanent secondary crushing facility was initiated at the end of 2013 and completed in mid-2014. Since early 2015 the mill has been operating at rates in excess of the 35,000 tpd design capacity. Management continues to focus on maximizing production while minimizing costs.

The Company trades on the Toronto Stock Exchange under the trading symbol "CMMC".

Copper Mountain Mine

The Copper Mountain mine is situated 20 km south of Princeton, British Columbia and 300 km east of the port of Vancouver. Based on current reserves, the mine has a life of 16 years from January 1, 2015. The property consists of 135 Crown granted mineral claims, 156 located mineral claims, 14 mining leases, and 12 fee simple properties covering an area of 6,702.1 hectares or 67 square kilometers.

The mine is a conventional open pit, truck and shovel operation. Mining is divided into multiple development phases with sequential pushbacks in each of the three main pit areas. This development sequence is designed to maximize the discounted cash flow based on the ore value which is reflected in the planned pit phases. In order to maximize the profit in the initial years, the Company is processing ore greater than 0.21% Cu, while ore that is less than 0.21% Cu but greater than 0.1% Cu is being mined and stockpiled (low grade stockpile) for processing in later years.

The Company's mining equipment fleet consists of two Komatsu PC 8000 hydraulic shovels, a Hitachi EX 5500 hydraulic shovel, eighteen Komatsu 240 ton capacity haul trucks, seven Euclid 260 ton haul trucks, a Komatsu WA 1200 loader, four Komatsu D375 dozers, and three Caterpillar 16G graders plus other support equipment typical of an operation of this size.

The mill is comprised of one SAG mill, two ball mills, a rougher floatation circuit, regrind mill, a cleaner floatation circuit, a concentrate thickener, and a pressure filter that produces copper concentrate at 9% moisture. Copper concentrate containing about 25% copper is trucked from the mine to the port of Vancouver where it is placed in a 20,000 tonne capacity storage shed for loading onto ocean going vessels for transportation to Japan.

Mining activities continued to be focused in the Pit #2, Saddle and Oriole areas for the second quarter of 2017. During the quarter a total of 18.2 million tonnes of material was mined, including 6.3 million tonnes of ore and

11.9 million tonnes of waste for a strip ratio of 1.89:1. High equipment mechanical availability was maintained during the quarter which helped contribute to the above average mining rates of 199,800 tonnes per day moved, well above our 2017 mining guidance rate of 180,000 tonnes per day moved. Mining costs per tonne during the quarter was $1.77 per tonne moved.

During the quarter the mill processed a total of 3.2 million tonnes of ore grading 0.31% copper to produce 17.2 million pounds of copper, 5,900 ounces of gold, and 63,200 ounces of silver. Mill head grade was slightly above guidance for the quarter, while copper recoveries were slightly below plan at 77.5% for the quarter. The lower recoveries can be attributable to the coarser grind that resulted from processing more material and from processing some fine-grained ore in the saddle area. Mill operating time during the quarter averaged 82.4% as a result of having some planned downtime to replace the bull gear on the SAG mill in April, ahead of schedule. Downtime for this job was factored into our annual production guidance of 75M-85M lbs of copper. Mill tonnage following the shutdown averaged 43,482 tpd, and 41,057 tpd for the months of May and June respectively. The SAG mill achieved an average throughput rate of 35,674 tpd during the second quarter.

During the quarter, the Company completed a total of three shipments of copper concentrate containing approximately 17.6 million pounds of copper, 6,300 ounces of gold, and 62,700 ounces of silver which generated $67.1 million in revenue net of treatment and refining charges and pricing adjustments.

The Company currently has 465 operating employees engaged at the mine site and maintained its excellent safety record of no loss time accidents.

The following table sets out the major operating parameters for the mine for the three and six months ended June 30, 2017.

Mine Production Information	**Three months ended June 30,**		**Six months ended June 30,**	
Copper Mountain Mine (100% Basis)	**2017**	**2016**	**2017**	**2016**
Mine:

Total cash costs per pound of copper sold (net of precious metal credits) (US$)	1.74	$1.58	1.80	$1.55

Exploration – Mine Site

The Company began a summer 10,000m exploration drilling program at the Copper Mountain Mine. The 2017 program is targeting to further extend Pit 2 to the West and to follow up on the pre-2012 drilling that intersected significant mineralization below Pit 2.

Previous drilling by the Company in the Pit 2 Eastern zone intersected a 128m interval grading 1.01% Cu and 0.25g/t Au (including 39m grading 2.33% Cu and 0.38g/t Au) beginning approximately 90m below the current pit bottom in hole 10SD-64. In addition, hole number 10SD-68 intersected 173m interval grading 0.43% Cu and 0.15g/t Au, while hole number 12P2-19 intersected 123m interval grading 0.52% Cu and 0.27g/t Au. The exploration drilling is designed to better determine the trend and continuity for high-grade mineralization at depth under Pit2.

Results of this program are expected in Q3 of 2017 and with the strengthening of the commodity price over the last year and the mine's improved financial position, the Company will continue to allocate funds towards exploration drilling at the mine site.

[4] Excludes ore re-handle from stockpile
[5] Tonnes per day

Exploration – Generative

The exploration team continues to investigate and evaluate early and advanced-exploration properties as well as development projects, which are predominately located within the America's.

[7] Cost of sales consists of direct mining and milling costs (which include mine site employee compensation and benefits, mine site general and administrative costs, non-capitalized stripping costs, maintenance and repair costs, operating supplies and external services), depreciation and offsite transportation and concentrate treatment costs.
[8] Adjusted earnings (loss) is a non-GAAP financial measure which excludes unrealized gains/losses on derivative instruments, changes in fair value of financial instruments, foreign currency gains/losses, pricing adjustments related to metal sales and non-recurring transactions.

For the Three Months Ended June 30, 2017

The Copper Mountain mine produced 17.2 million pounds of copper during the three months ended June 30, 2017 compared to 21.2 million pounds of copper in the second quarter of the prior year. Site cash costs were US$1.31 per pound of copper produced, net of precious metal credits, and total cash costs were US$1.74 per pound sold, net of precious metal credits, for the three months ended June 30, 2017; compared to site cash costs of US$1.17 per pound of copper produced and total cash costs of US$1.58 per pound of copper sold, net of precious metal credits for the three months ended June 30, 2016. Site cash costs were increased on a per pound of copper basis as a result of the decreased pounds of copper produced due to the scheduled maintenance shutdown of the SAG Mill which occurred during the quarter.

During the period the Company recognized net revenues of $67.1 million, which includes $6.5 million in treatment charges based on an average provisional copper price of US$2.58 per pound; compared to revenues of $62.6 million net of pricing adjustments and an average copper price of US$2.13 per pound for the period ended June 30, 2016. The increase in revenue is a result of stronger copper prices and a higher foreign exchange rate for the United States dollar as compared to the same period last year. During the quarter the Company sold 17.6 million pounds of copper and 6,300 ounces of gold as compared to 20.1 million pounds of copper and 7,200 ounces of gold for the period ended June 30, 2016. Mining operations for the three month period ended June 30, 2017 resulted in a gross profit of $8.3 million as compared to a gross profit of $2.4 million for the period ended June 30, 2016. The Company reported earnings attributable to the shareholders of the Company of $7.2 million or $0.05 per share for the three months ended June 30, 2017, compared to net loss of $1.9 million or $(0.02) per share for the three months ended June 30, 2016.

Cost of sales represent direct mining and milling costs (which include operating, non-capitalized waste stripping costs, maintenance and repair costs, mine site general and administrative costs, operating supplies and external services, employee compensation and benefits), depreciation, transportation and treatment costs. The cost of sales for the three month period ended June 30, 2017, was $58.9 million compared to $60.2 million for the three month period ended June 30, 2016.

General and administration expenses for the three months ended June 30, 2017, was $1.7 million compared to $1.2 million for the three months ended June 30, 2016. Non-cash share based compensation reflected an expense of $0.3 million for the three months ended June 30, 2017, compared to an expense of $0.2 million for the three month period ended June 30, 2016.

Other items recorded include finance income of $0.2 million, finance expense of $3.3 million and a resource tax expense of $0.1 million for the three months ended June 30, 2017, compared to finance income of $0.04 million, finance expense of $2.9 million, and resource tax expense of $0.2 million for the three months ended June 30, 2016. Finance expense primarily consists of interest on loans and the amortization of loan related financing fees.

For the Six Months Ended June 30, 2017

The Copper Mountain mine produced 35.3 million pounds of copper during the six months ended June 30, 2017 compared to 40.2 million pounds in the prior year. The mine shipped and sold a total of 36.6 million pounds of copper, 12,300 ounces of gold, and 126,700 ounces of silver during the six months ended June 30, 2017 compared to 38.2 million pounds of copper, 14,100 ounces of gold and 124,900 ounces of silver during the six months ended June 30, 2016. Site cash costs, net of precious metals credits were US$1.35 per pound of copper produced and total cash costs were US$1.80 per pound sold for the six months ended June 30, 2017 compared to site cash costs of $1.14 per pound of copper produced and total cash costs of $1.55 per pound sold for the six months ended June 30, 2016. During the period the Company recognized revenues of $141.2 million, net of pricing adjustments and based on an average provisional copper price of US$2.62 per pound compared to revenues of $121.3 million and a provisional copper price of US$2.12 per pound for the six months ended June 30, 2016. Gross profit for the six month period ended June 30, 2017 was $19.5 million as compared to $5.9 million for the period ended June 30, 2016. The increase in gross profit was primarily a function of the increased copper price as compared to the prior year period. The Company reported income to the shareholders of the Company of $11.9 million or $0.09 per share for the six months ended June 30, 2017, compared to net income of $11.7 million or $0.10 per share for the six months ended June 30, 2016. The income for the six months period ended June 30, 2017, recorded an unrealized foreign exchange gain of $10.5 million which was primarily related to the Company's project debt that is denominated in U.S. dollars. This compares to an unrealized foreign exchange gain of $27.9 million for the six month period ended June 30, 2016.

Cost of sales represent direct mining and milling costs (which include operating, non-capitalized waste stripping costs, maintenance and repair costs, mine site general and administrative costs, operating supplies and external services, employee compensation and benefits), depreciation, transportation and treatment costs. The cost of sales for the six month period ended June 30, 2017, was $121.7 million compared to $115.4 million for the six month period ended June 30, 2016.

General and administration expenses for the six months ended June 30, 2017, was $4.3 million compared to $3.0 million for the six months ended June 30, 2016. Non-cash share based compensation reflected an expense of $0.8 million for the six months ended June 30, 2017, compared to an expense $0.4 million for the six month period ended June 30, 2016.

Other items recorded include finance income of $0.4 million, finance expense of $6.7 million and a resource tax expense of $0.5 million for the six months ended June 30, 2017, compared to finance income of $0.1 million, finance expense of $6.0 million, and resource tax expense of $0.3 million for the six months ended June 30, 2016. Finance expense primarily consists of interest on loans and the amortization of loan related financing fees.

Summary of Quarterly Results

The following table contains selected quarterly financial information derived from the Company's financial statements and should be read in conjunction with the consolidated quarterly financial statements which are reported under IFRS applicable to interim financial reporting.

Quarter	Revenue[6] $	Net Income (Loss) $	Profit (Loss) Attributable to Shareholders $	Cash flow from operations $	Income (Loss) per Share Basic $	Income (Loss) per Share Diluted $
June 30, 2017	67,146	10,111	7,223	25,870	0.05	0.05
March 31, 2017	74,096	7,117	4,723	2,850	0.04	0.04
December 31, 2016	84,523	2,881	2,098	22,518	0.01	0.01
September 30, 2016	72,195	(7,937)	(6,098)	15,862	(0.05)	(0.05)
June 30, 2016	62,552	(2,275)	(1,894)	13,720	(0.02)	(0.02)
March 31, 2016	58,726	18,928	13,617	(5,163)	0.11	0.11
December 31, 2015	50,018	(45,818)	(35,066)	3,450	(0.29)	(0.29)
September 30, 2015	63,702	(28,121)	(21,059)	4,774	(0.18)	(0.18)

Cash flow from operations and Net Income (Loss) and Profit (Loss) attributable to the shareholders varies from period to period primarily as a result of operational performance discussed in the overview section above, and non-cash items such as; changes in foreign exchange rates, share based compensation charges, inventory write-downs and valuation of the interest rate swap related to a portion of the Company's long-term debt denominated in U.S. dollars.

Management of the Company believe that as a result of the Company having U.S. denominated debt, selling Copper, Gold and Silver in U.S. dollars and reporting the financial statements in Canadian dollars, the unrealized foreign exchange loss or gain each quarter can have a significant impact on the results of the Company if the reader of the financial statements if just looking at net income only. As a result, management believe that readers of the financial statements should look to adjusted EBITDA, Adjusted Earnings and Adjusted Earnings per share as an alternative to evaluate the Company's performance during the period. The following table contains selected quarterly non-GAAP financial information derived from the Company's financial statements and should be read in conjunction with the consolidated quarterly financial statements which are reported under IFRS applicable to interim financial reporting.

Quarter	Revenue[6] $	Adjusted EBITDA $	Cash Flow from Operations before working capital changes $	Adjusted Earnings $	Adjusted Earnings (Loss) per Share Basic $
June 30, 2017	67,146	19,108	18,786	4,033	0.03
March 31, 2017	74,096	16,030	20,843	4,304	0.00

[6] Net of treatment and refining charges and price adjustments

Liquidity

As at June 30, 2017, the Company had $37.1 million in cash and cash equivalents, after paying down $14.2 million in principle and interest on the senior loan. Working capital was a negative $13.4 million at the end of the quarter compared with negative working capital of $0.8 million at December 31, 2016. Included in negative working capital is $30.3 million due to MMC which is not expected to be repaid in the next twelve months. The Company has no future material commitments for capital expenditures as of June 30, 2017.

The recent strength in US denominated commodity prices have had a positive impact on the Company's operating results, increasing operating income and cash generated from operating activities from an operating income of $5.9 million and cash flows from operations of $8.6 million for the six months ended June 30, 2016 to an operating income of $19.5 million and cash flows from operations of $28.7 million for the six months ended June 30, 2017. In the next twelve months the Company has contractual obligations which are due in US dollars including senior credit facility and term loan payments of approximately US$33.0 million, which the Company expects to be able to fund through cash on hand and cash flows from operations. However, the current commodity price and exchange rate environment can be volatile and accordingly will have an impact on the Company's cash flows.

Despite the higher copper price being realized in early 2017, the Company continues to review its near term operating plans and continues to take steps to reduce costs and maximize cash flow from operations, while still maintaining copper output levels.

Management has received an extension of the required funding of the debt service and capex reserve accounts relating to the Company's Senior Credit Facility by providing corporate guarantees. The extension expires June 30, 2018 and although such extensions have been obtained in the past, there are no guarantees they will continue to be obtained in the future.

The Company holds its excess cash in interest bearing accounts or in cashable Guaranteed Investment Certificates at major Canadian or United States banks.

As at June 30, 2017 the Company had a total of $8.2 million on deposit with the Government of British Columbia in support of reclamation liabilities at the Copper Mountain Mine. The Company receives interest from these funds on deposit.

As at June 30, 2017, the Company had the following consolidated contractual obligations:

	Contractual Obligation (thousands of CDN$)			
Annual repayments due from June 30,	Long term debt	Lease obligations	Decommissioning & restoration provision	Trade Accounts payable
2017	41,516	8,631	-	23,491
2018	42,566	4,629	-	-
2019	51,819	4,047	-	-
2020	52,870	93	-	-
2021	82,302	-	-	-
2022 and later	53,632	-	6,954	-
Total	**324,705**	**17,400**	**6,954**	**23,491**

Cash to meet the Company's future cash commitments will come from existing cash on hand and from cash flow from operations. Despite the higher copper price being realized for the first half of 2017, the Company continues to review its near term operating plans and continues to take steps to reduce costs and maximize cash flow from operations, while still maintaining copper output levels. The Company manages liquidity by continuously monitoring and forecasting cash flows.

The Company had no material commitments for capital expenditures as of June 30, 2017.

Capital Resources

As at June 30, 2017, the Company had a total of $49.7 million of capital resources in the form of $37.1 million in cash and cash equivalents, $11.4 million in concentrate sales receivables, and $1.2 million of concentrate inventory. Cash on hand at any particular point in time is variable depending on timing of shipments and timing of finalization of past shipments.

Off-Balance Sheet Arrangements

None

Transactions with Related Parties

All transactions with related parties have occurred in the normal course of the Company's operations and have been measured at their fair value as determined by management.

- During the six months ended June, 2017 the Company sold copper concentrates to MMC with revenues totalling $141,242 (2016 – $121,278) including pricing adjustments.

- During the six months ended June 30, 2017 the Company accrued interest on the subordinated loan with MMC totalling $232 (2016 - $232).

- As at June 30, 2017 the Company accrued to MMC a guarantee fee related to the Term Loan of $177 (2016 - $190). The Company has also received aggregate funding advances from MMC totalling $26,265 (2016 - $10,812). These advances bear interest at rates of 2.88% to 4.80% with total interest during the six months ended June 30, 2017 of $367 (2016 - $120).

- A company controlled by a director of the Company agreed to purchase 642 acres of land adjoining the mine site for future expansion opportunities. Under the terms of the put/ call agreement the Company has the irrevocable right to call the land from the company controlled by the director at any time for the same price as the company controlled by the director paid for the land. Similarly, the company controlled by the director has the irrevocable right to put the land to the Company at any time after January 16, 2016. The purchase price of the land is $1.53 million plus interest and out of pocket expenses.

- Key management includes the Company's directors and officers. Compensation awarded to key management includes:

	Three months ended June 30,		**Six months ended June 30,**

Proposed Transactions

None

Critical Accounting Estimates

The Company's significant accounting policies are presented in note 3 of the audited consolidated financial statements for the period ended December 31, 2016. The preparation of consolidated financial statements in accordance with International Financial Reporting Standard requires management to select accounting policies and make estimates. Such estimates may have a significant impact on the consolidated financial statements. These estimates include:

- mineral resources and reserves,
- net realizable value of inventory,
- current and deferred income and resource taxes,
- the assumptions used in determining the decommissioning and restoration provision,

Actual amounts could differ from the estimates used and, accordingly, affect the results of operations.

Change in Accounting Policies, Including Initial Adoption

No changes to accounting policies have been made for the period ended June 30, 2017. The same accounting policies and methods of application have been applied as the Company's most recent annual audited consolidated financial statements.

New Accounting Standards Adopted

None

Financial Instruments and Other Instruments

Please refer to note 3(d) of the audited financial statements for the year ended December 31, 2016.

Non-GAAP Performance Measures

This document includes certain non-GAAP performance measures that do not have a standardized meaning prescribed by IFRS. These measures may differ from those used by, and may not be comparable to such measures as reported by, other issuers. The Company believes that these measures are commonly used by certain investors, in conjunction with conventional IFRS measures, to enhance their understanding of the Company's performance. These measures have been derived from the Company's financial statements and applied on a consistent basis. The following tables below provide a reconciliation of these non-GAAP measures to the most directly comparable IFRS measure.

Cash costs per pound

Cash costs of sales include all costs absorbed into concentrate inventory, as well as precious metal credits, treatment & refining costs and transportation costs, less non-cash items such as depreciation. Total cash cost per pound sold is calculated by dividing the aggregate of the applicable costs by copper pounds sold. Site cash costs of production include all costs absorbed into inventory less non-cash items such as depreciation and non-site charges such as trucking charges capitalized to concentrate inventory. Site cash costs per pound produced are calculated by dividing the aggregate of the applicable costs by copper pounds produced. These measures are calculated on a consistent basis for the periods presented.

Cash Margin

Cash margin represents the average realized copper price per pound sold less total cash cost per pound sold.

	Three months ended June 30,		Six months ended June 30,	
		2016		2016
Average realized copper price for the period (US$ per pound)	$2.58	$2.13	$2.62	$2.12
Less:				
Total cash cost of sales net of precious metal credits(US$ per pound sold)	$1.74	$1.58	$1.80	$1.55
Cash margin (US$ per pound)	**$0.84**	**$0.55**	**$0.82**	**$0.57**

Adjusted Earnings (Loss)

Adjusted earnings (loss) removes the effects of the following transactions from operating income as reported under IFRS:

- Unrealized gains/losses on derivative instruments;
- Changes in fair value of financial instruments;
- Foreign currency translation gains/losses and
- Non-recurring transactions

Management believes that these transactions do not reflect the underlying operational performance of the Company's mining operations and are also not indicative of future operating results.

EBITDA and Adjusted EBITDA

EBITDA represents earnings before interest, income taxes and depreciation. Adjusted EBITDA includes further adjustments for non-recurring items and items not indicative to the future operating performance of the Company. The Company believes EBITDA and adjusted EBITDA are appropriate supplemental measure of debt service capacity and performance of its operations.

Adjusted EBITDA is calculated by removing the following income statement items:

- Unrealized loss/gain on interest rate swaps;
- Foreign exchange loss/gain;
- Pricing adjustments on concentrate and metal sales

EBITDA and Adjusted EBITDA	**Three months ended June 30, 2017**	**2016**	**Six months ended June 30, 2017**	**2016**
Net income (loss)	10,111	(2,275)	17,228	16,653

Internal Controls Over Financial Reporting and Disclosure Controls and Procedures

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting and disclosure controls and procedures. Our internal control system over financial reporting is designed to provide reasonable assurance to management and the Board of Directors regarding the preparation and fair presentation of published financial statements. Internal control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;

2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Our internal control system over disclosure controls and procedures is designed to provide reasonable assurance that material information relating to the Company is made known to management and disclosed to others and information required to be disclosed by the Company in our annual filings, interim filings or other reports filed or submitted by us under securities legislation is recorded, processed, summarized and reported within the time periods specified in the securities legislation.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined effective can provide only reasonable assurance with respect to financial reporting and disclosure. Other than changes related to our conversion to IFRS, there have been no changes in our internal control over financial reporting and disclosure controls and procedures during the period ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting and disclosure.

The Company's management, at the direction of our chief executive officer and chief financial officer, have evaluated the effectiveness of the design and operation of the internal controls over financial reporting and disclosure controls and procedures as of the end of the period covered by this report, and have concluded that they were effective at a reasonable assurance level.

Risks and Uncertainties

The Company's success depends on a number of factors, most of which are beyond the control of the Company. Typical risk factors include copper, gold and silver price fluctuations, foreign currency fluctuations, and operating uncertainties encountered in the mining business. Future government, legal or regulatory changes could affect any aspect of the Company's business, including, among other things, environmental issues, land claims, permitting and taxation costs all of which could adversely affect the ability of the Company to develop the Copper Mountain mine. These risks and uncertainties are managed by experienced managers, advisors and consultants, by maintaining adequate liquidity, and by cost control initiatives.

1 General information and liquidity

Copper Mountain Mining Corporation ("the Company") was incorporated under the provisions of the British Columbia Business Corporations Act on April 20, 2006 and is a Canadian development and operating mining company. The Company maintains its head office at Suite 1700 – 700 West Pender Street, Vancouver, British Columbia. The Company through a subsidiary owns 75% of the Copper Mountain mine while Mitsubishi Materials Corporation ("MMC") owns the other 25% interest in the Copper Mountain mine.

As at June 30, 2017, the Company had negative working capital of $13.4 million compared to negative working capital of $0.80 million at December 31, 2016. Included in the negative working capital is $30.3 million due to MMC (Note 14 (c)) and this amount is not expected to be repaid within the next twelve months. The Company has no future material commitments for capital expenditures as of June 30, 2017.

The recent strength in US denominated commodity prices have had a positive impact on the Company's operating results, increasing operating income and cash generated from operating activities from an operating loss of $1.8 million and cash flows from operations of $8.6 million for the six months ended June 30, 2016 to an operating income of $14.4 million and cash flows from operations of $28.7 million for the six months ended June 30, 2017. In the next twelve months the Company has contractual obligations which are due in US dollars including senior credit facility and term loan payments of approximately US$33.0 million, which the Company expects to be able to fund through cash on hand and cash flows from operations. However, the current commodity price and exchange rate environment can be volatile and accordingly will have an impact on the Company's cash flows.

Despite the higher copper price being realized for the first half of 2017, the Company continues to review its near term operating plans and continues to take steps to reduce costs and maximize cash flow from operations, while still maintaining copper output levels. The Company remains vigilant for ongoing opportunities to reduce costs and improve net cash generation.

Management has received an extension of the required funding of the debt service and capex reserve accounts relating to the Company's Senior Credit Facility by providing corporate guarantees. The extension expires June 30, 2018 and although such extensions have been obtained in the past there are no guarantees they will continue to be obtained in the future.

2 Statement of compliance

a. Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and follow the same accounting policies and methods of application as the Company's most recent annual audited consolidated financial statements which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standard Board ("IASB"). These condensed consolidated interim financial statements were approved for issue on August 3, 2017 by the Board of Directors.

b. Foreign currency translation

These condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company's functional currency. Transactions in currencies other than the functional currency are recorded at the rate of exchange prevailing on the date of the transaction. Monetary assets and liabilities that are denominated in foreign currencies are translated at the rate prevailing at each reporting date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate on the date of the transaction. Foreign currency translation differences are recognized in profit or loss.

7 Deferral of electricity payments

For the period ended June 30, 2017, the Company has deferred electricity payments totalling $13,630 under BC Hydro's five-year power rate deferral program for BC mines. The program became effective March 1, 2016 and will allow the Copper Mountain mine to defer up to 75% of electricity costs. The deferral amount is based on a formula incorporating the average copper price during the preceding month priced in Canadian dollars. The balance, plus interest at the prime rate plus 5%, will be repayable on a monthly schedule if the average copper price during the preceding month exceeds a threshold amount. Any remaining deferred balance will be repayable at the end of the five year term. Forecasted copper prices incorporated into the formula require $4,264 to be repaid over the next twelve months with the remaining deferred amount of $9,366 classified as a long-term financial liability. The current amount due is included in accounts payable.

8 Long-term debt

	June 30, 2017 $	December 31, 2016 $
Senior credit facility (b) in US$	108,849	116,694

Leases (d)	16,345	14,270
Total	341,050	366,174
Less: current portion	(50,975)	(46,415)
	290,075	319,759

(Unaudited in thousands of Canadian dollars, except where otherwise stated)

a) Subordinated loan

In April 2010, the Company entered into a loan agreement with a subsidiary of MMC for $9,600. The loan bears interest at a fixed rate of 4.8%. The loan principal and accumulated interest matures on June 30, 2023 and is pre-payable at any time without penalty. The loan and accumulated interest is subordinate to the senior credit facility.

b) Senior credit facility

The Company has a senior credit facility (“the SCF”) with a consortium of Japanese banks.

The maximum amount available under the SCF was US$162 million which was fully drawn in 2011. The SCF carries a variable interest rate of LIBOR plus 2% and matures on June 15, 2023. The SCF is repayable in twenty four semi-annual instalments which commenced December 15, 2011, with 40% of the principal balance due in the final two years before maturity. The instalments are payable on a fixed schedule, subject to mandatory prepayment based on cash flows relating to the Copper Mountain Mine. As at June 30, 2017 the Company has repaid a total of US$50.2 million in principal and US$20.0 million in interest on the SCF.

Under the terms of the SCF, the Company was required to maintain certain balances up to a total of US $12 million in the debt service reserve account (“DSRA”) and the capex reserve account (“CXRA”) by June 30, 2012. Since this date, the Company and MMC have jointly guaranteed to June 30, 2018 the amounts owing to the DSRA and the CXRA, as a result no funds were required to be placed on deposit in either of the accounts.

As at June 30, 2017 the SCF has a principal amount outstanding of $141,253 (US$112 million). The outstanding amount of $145,057 is net of issue costs of $3,804.

The SCF is collateralized by all the assets of the Copper Mountain Mine and is insured by Nippon Export and Investment Insurance.

Minimum principal repayments of the amounts outstanding under the SCF are as follows:

Minimum annual payments from June 30	**US$ ‘000**
2017	13,770
2018	14,580
2019	8,910
2020 – 2023	74,520
	111,780

Under the terms of the SCF, the Company was required to complete an interest rate swap on 70% of the principal amount of the facility. The Company swapped a LIBOR variable rate interest payment stream for a 3.565% fixed rate interest payment stream on 70% of the original principal. The interest rate swaps mature on December 15, 2020.

As at June 30, 2017 the swap had an unrealized fair value loss of $5,069 (2016 - $9,875). The current portion of $1,448 is included in accounts payable and accrued liabilities.

(Unaudited in thousands of Canadian dollars, except where otherwise stated)

As at June 30, 2017 the Company is in compliance with all covenants which may result in the event of default of the senior credit facility.

c) Term loan

In July 2010, the Company entered into a term loan ("the Term Loan") with the Japan Bank for International Cooperation.

The maximum amount available under the Term Loan was US$160 million which was fully drawn in 2011. The Term Loan carries a variable interest rate of LIBOR plus 0.551% and matures on February 15, 2022. As at June 30, 2017 the Term Loan has a principal amount outstanding of $174,411 (US$134 million). The outstanding amount of $170,761 is net of issue costs of $3,650. The Term Loan is guaranteed by MMC in exchange for a fee of 0.2% per annum.

The Term Loan is unsecured and repayable in increasing instalments every six months commencing February 2013, with the majority of the loan falling due in the last six instalments. As at June 30, 2017 the Company has repaid a total of US$25.7 million in principal and US$9.6 million in interest on the Term Loan.

Principal repayment amounts outstanding under the Term Loan are as follows:

Minimum annual payments from June 30	**US$**
2017	19,200
2018	19,200
2019	32,000
2020 - 2022	64,000
	134,400

The Company is subject to certain debt covenants on the Term Loan. As at June 30, 2017 the Company is in compliance with all covenants.

d) Leases

Gross finance lease liability and minimum lease payments	**June 30, 2017 $**	**December 31, 2016 $**
Within one year	8,716	7,556
Between two and four years	8,683	7,816
	17,399	15,372
Future interest	(1,054)	(1,102)
Finance lease liability	**16,345**	**14,270**

(Unaudited in thousands of Canadian dollars, except where otherwise stated)

9 Decommissioning and restoration provision

a. Reclamation bonds

The Company has on deposit $8,227 with the Government of British Columbia in support of reclamation liabilities at the Copper Mountain mine site. The Company receives interest on these bonds.

b. Decommissioning and restoration provision

The Company has a liability for remediation of current and past disturbances associated with mining activities at the Copper Mountain property. Decommissioning liabilities are as follows:

	June 30, 2017	**December 31, 2016**
	$	**$**
Opening balance	6,312	7,787
Changes in estimated costs and timing	(134)	(1,471)
Unwinding of discount on restoration provision	(136)	(4)
End of period	**6,042**	**6,312**

The Company used an inflation rate of 0.90% (2016 – 2.10%) and a discount rate of 2.13% (2016 – 1.72%) in calculating the estimated obligation. The liability for retirement and remediation on an undiscounted basis is $6,954 (2016 - $7,032). The expected timing of payment of the cash flows commences in 2028.

(Unaudited in thousands of Canadian dollars, except where otherwise stated)

10 Share based compensation

a. Stock options

The Company has a stock option plan whereby it can grant up to 13,000,000 stock options exercisable for a period of up to ten years from the grant date. As at June 30, 2017 the Company had 7,989,234 options issued and outstanding.

The continuity of stock options issued and outstanding is as follows:

Options	**Options outstanding**	**Weighted average exercised price $**
Outstanding, December 31, 2015	5,355,000	2.64
Granted	2,355,000	0.39
Exercised	(12,500)	0.59
Expired	(525,000)	6.63
Forfeited	(347,500)	1.62
Outstanding, December 31, 2016	**6,825,000**	1.61
Granted	2,035,000	1.18
Exercised	(70,766)	0.43
Expired	(800,000)	4.52
June 30, 2017	**7,989,234**	**1.22**

As at June 30, 2017 the following options were outstanding:

Date of stock option grant	**Number of options**	**Exercise price $**	**Weighted average exercise price $**	**Expiry date**
Feb. 20, 2014	3,200,000	1.92	1.92	Feb. 20, 2019
Sep. 18, 2015	567,500	0.59	0.59	Sep. 18, 2020
Jan. 26, 2016	2,111,734	0.39	0.39	Jan. 26, 2021
June 30, 2016	75,000	0.50	0.50	June 30, 2021
Jan. 13, 2017	1,750,000	1.18	1.18	Jan. 13, 2022
Feb. 1, 2017	100,000	1.23	1.23	Feb. 1, 2020
Feb. 2, 2017	150,000	1.23	1.23	Feb. 2, 2020
Apr. 24, 2017	35,000	0.93	0.93	Apr. 24, 2022
	7,989,234		**1.22**	

As at June 30, 2017, there were 4,688,750 stock options exercisable at a weighted average exercise price of $1.53.

During the six month period ended June 30, 2017, the total fair value of stock options vesting was $809 (2016 - $440) with a weighted average grant-date fair value of $0.76 per option. The fair values of the stock options granted were estimated using the Black-Scholes option pricing model. Volatility was determined using a historical daily volatility over the expected life of the options.

(Unaudited in thousands of Canadian dollars, except where otherwise stated)

Weighted average assumptions used in calculating the fair value of options granted during the period are as follows:

	June 30, 2017
Risk free interest rate	1.15%
Expected dividend yield	Nil
Expected share price volatility	65.7%
Expected forfeiture rate	3.3%
Expected life	4.8 years

b. Deferred Share Unit Plans

The continuity of deferred share units issued and outstanding is as follows:

Units	**DSU-D**	**Weighted average exercise price $**	**DSU-E**	**Weighted average exercise price $**
Outstanding, December 31, 2015	1,807,339	1.85	2,679,646	2.13
Issued	250,000	0.45	-	-
Forfeited	-	-	(125,000)	1.91
Outstanding, December 31, 2016 and June 30, 2017	**2,057,339**	**1.68**	**2,554,646**	**2.14**

As at June 30, 2017 the following deferred share units were outstanding:

Date of DSU grant	**Number of Units**	**Exercise price $**	**Weighted average exercise price $**	**Expiry date**
DSU-D – September 17, 2010	27,027	-	-	September 17, 2020
DSU-E – September 17, 2010	329,646	3.70	3.70	September 17, 2020
DSU-D – August 12, 2011	9,571	-	-	August 12, 2021
DSU-D – April 5, 2012	20,741	-	-	April 5, 2022
DSU-D – April 13, 2013	500,000	1.88	1.88	April 13, 2018
DSU-E – April 13, 2013	425,000	1.88	1.88	April 13, 2018
DSU-D – February 20, 2014	1,250,000	1.92	1.92	February 20, 2019
DSU-E – February 20, 2014	1,800,000	1.92	1.92	February 20, 2019
DSU-D – September 16, 2016	250,000	0.45	0.45	September 16, 2020
	4,611,985		**1.93**	

As at June 30, 2017 there were 4,361,985 deferred share units exercisable at a weighted average price of $1.98.

As at June 30, 2017 the liability for deferred share units issued and outstanding is $96 (2016 - $28).

During the six months ended June 30, 2017, the Company recorded share-based compensation recovery of $20 (2016 – $63) related to deferred share units.

(Unaudited in thousands of Canadian dollars, except where otherwise stated)

11 Revenue

	Three months ended June 30,		Six months ended June 30,	
	2017	**2016**	**2017**	**2016**

16 Financial instruments

The fair values of financial asset and financial liabilities approximate their carrying amounts in the condensed consolidated interim statement of financial position.

Fair Value hierarchy

The following table classifies financial assets and liabilities that are recognized on the balance sheet at fair value in a hierarchy that is based on significance of the inputs used in making the measurements.
The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy as at June 30, 2017:

	Level 1 $	Level 2 $	Level 3 $	Total fair value $
Financial assets				
Pricing adjustments (note 3 and 11)	-	3,195	-	3,195
Financial liabilities				
Interest rate swap liability	-	5,069	-	5,069

Financial risks factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and commodity price risk), credit risk and liquidity risk. Risk management is carried out by management under policies approved by the board of directors. Management identifies and evaluates the financial risks in co-operation with the company's operating units. The board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity. The Company's overall risk management program seeks to minimize potential adverse effects on the company's financial performance.
