

Geotechnical Engineer

Copper Mountain Mine is a large scale open pit copper mine located in south central British Columbia. The mine has evolved into a mature and highly efficient operation with a long term mine plan and significant opportunity for mine life extension. If you like to work with people in a working environment to deliver results, and you enjoy an active outdoor lifestyle with easy access to city life, this could be your opportunity.

Responsibilities

- Maintain legal compliance with permit and legislation requirements through sample collection, data management, data analysis and report writing
- Assist in the development, update and implementation of environmental management plans and reclamation plans, and monitor compliance with the plans
- Oversee activities of field technicians to ensure environmental monitoring is completed in accordance with permit and legislation requirements and quality control standards
- Participate in a broad range of environmental monitoring, research and reclamation activities
- Contribute to the preparation of internal month end reports
- Promote environmental awareness and standards relating to environmental programs to employees and contractors to minimize any risk of negative impacts to the environment
- Provide response and training on environmental emergencies, and participate in investigations of environmental incidents
- Informs, involves and engages key internal and external stakeholders appropriately; develops and maintains positive relationships and represents Copper Mountain positively in the community
- Completes tasks with minimal supervision

Qualifications/Experience

- Geological or Geotechnical Engineer
- 3+ years of relative experience - Practical work experience specifically related to open pit rock mechanics projects is preferred.
- Experience working in an open pit environment specifically in a base or precious metals operation
- The ideal candidate will possess a technical background in geomechanical site investigation, analysis, and slope stability assessment
- Strong computer skills with mining and slope monitoring software
- Strong commitment to workplace safety

Pay and Benefits

CMM offers a competitive wage, comprehensive benefit package including RRSP contributions. **There is no camp provision at Copper Mountain Mine.**

This position works Monday to Friday. All qualified persons are invited to apply; **applicants must be legally entitled to work in Canada.**

You will be required to participate in a pre-employment drug & alcohol screening and a medical.

Send resume outlining related qualifications to hr@cumtnop.com (in either word or pdf format).

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Your application to this posting is deemed to be your consent to the collection, use and necessary disclosure of personal information for the purposes of recruitment. Copper Mountain Mine respects the privacy of all applicants and the confidentiality of personal information.
