

Copper Mountain Mining Corporation (CMMC) is a TSX/ASX listed copper producer, developer and explorer in world class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine produces over 100 million pounds of copper equivalent per year with a large resource that remains open laterally and at depth. Copper Mountain also has the development stage Eva Copper Project in Queensland, Australia, which is expected to add approximately 100 million pounds of copper on an annual basis, in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa area. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and Australian Stock Exchange under the symbol "C6C".

### **Position**

Project Manager, Eva Copper

### **Location**

Brisbane and Cloncurry, Queensland, Australia

### **Summary**

Reporting to the Vice President, Project Development, the Project Manager is responsible for the development of the Eva Copper Project through planning/execution, engineering, construction and commissioning.

### **Key Responsibilities**

- Develop the appropriate plans for the development of the Eva Copper Project, including budgets, schedules and resources.
- Provide technical and operational leadership to the Project team, including actively promoting safety awareness and environmental responsibility.
- Manage project resources, including external consultants and contractors, to ensure all work is completed on schedule, on budget and meets all quality and safety standards.
- Oversee tender preparation, contract negotiations, logistics and supply management.
- Manage relationships with key stakeholders, including local communities and regulatory authorities as appropriate.
- Ensure compliance with all applicable policies, laws and government regulations and integrate applicable industry best practices.
- Effectively communicate and report on project status with Vice President, Project Development and other senior leaders as required.

### **Education & Experience**

- Bachelor's degree in Engineering
- Minimum twenty (20) years' experience in engineering and construction within an EPC/EPCM environment with a focus on mining projects.
- Experience in managing major capital (+\$200M) greenfield and brownfield projects.
- Experience as an owner's team Project Manager would be an advantage.
- Experience building and managing multi-disciplinary teams.
- Work experience in Australia is an asset.

## Required Skills

- Ability to work in a fast-paced, dynamic environment managing multiple priorities under tight deadlines.
- Excellent oral and written communication skills, including the ability to present ideas clearly.
- Understand relevant national, regional and local laws and applicable regulatory requirements.
- Experience leading multi-cultural teams.
- High degree of business acumen and ability to think strategically.
- Proficient computer skills, with advanced knowledge of Microsoft Office applications (Power Point, Word, Excel) and ability to learn new software.
