

Copper Mountain Mining Corporation (CMMC) is a TSX/ASX listed copper producer, developer and explorer in world class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine produces over 100 million pounds of copper equivalent per year with a large resource that remains open laterally and at depth. Copper Mountain also has the development stage Eva Copper Project in Queensland, Australia, which is expected to add approximately 100 million pounds of copper on an annual basis, in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa area. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and Australian Stock Exchange under the symbol "C6C".

Position:

Director, Projects

Location

Vancouver, BC

Summary:

Reporting to the Vice President, Project Development, the Director, Projects is responsible for managing project development activity at the Company's operations and exploration properties.

Key Responsibilities:

- Collaborate with project and mine site leadership to develop project execution strategies, including key milestones, timelines, and deliverables.
- Prepare and review, as required, project studies, design criteria, reports, plans and specifications.
- Responsible for negotiating and supporting the selection of all third-party design, engineering and other construction and consulting firms that may be engaged.
- Manage project construction activities.
- Manage project resources, including external consultants and contractors, to ensure all work is completed on schedule, on budget and meets all quality and safety standards.
- Ensure compliance with all applicable policies, laws and government regulations and integrate applicable industry best practices.
- Effectively communicate and report on project status with Vice President, Project Development and other senior leaders as required.
- Perform other duties as assigned and required.

Education & Experience:

- Bachelor's degree in Engineering.
- Minimum 15 years' experience in engineering and construction within an EPC/EPCM environment with a focus on mining projects.
- Experience in managing small to medium greenfield and brownfield capital (+\$15-\$100M) projects is required.
- Experience as an owner's team Project Manager would be an advantage.

Required Skills:

- Ability to work in a fast-paced, dynamic environment managing multiple priorities under tight deadlines.
- Excellent oral and written communication skills, including the ability to present ideas clearly.
- Strong technical report writing and presentation skills.
- Ability to identify key technical and business issues and develop innovative solutions.
- Demonstrated ability to manage work in a brownfield environment, including the ability to establish strong working relationships between the operations and project development teams.
- Computer literate with previous experience using the Microsoft Office suite (including Excel and Word) and the ability to learn new software programs.

To apply, please send your cover letter and resume to hr@cumtn.com. Please include '**Director, Projects**' in the subject line of your email response.

While we thank all applicants for their interest, only those selected for an interview will be contacted.
